

REPRESENTATIVE IWG RESPONSIBILITIES FOR PLANNING PURPOSES

-- not necessarily to be performed in the order presented --

Developing Regulations:

- Review of inventory and emissions databases, including ICR responses
- Identification of subcategories and groupings
- Plan for addressing data gaps, including possible source testing
- Source testing, if required
- Model plants
- Emission levels and floors
- Control options, efficiencies, costs, and cost-effectiveness'
- Energy, economics, and environmental impacts
- Full regulatory analysis
- Regulatory development

Other Activities:

- ICWI Regulatory Alternatives Paper (RAP)
 - Draft for IWG review
 - Recommendations presented to CC
 - Revisions based on CC comments
 - (Note: EPA "White Paper" due November 16, 1998)
- Combine/coordinate regulatory steps with boiler/process heater workgroups
